

Privacy Butler

We are unable to cope with all the various privacy notices we have to deal with on a daily basis. We hate this fact as our data is important to us!

Our Privacy Butler helps you to understand any privacy notices. You simply tell Privacy Butler which data processing is a “no go” for you. It converts the privacy notice into icons that show you immediately whether your desired data protection standard is met or not.

WANTED!

- Frontend- or Mobile-Engineer
- Backend-Engineer (AI)
- Creative thinker/designer
